SUBJECT: EGYPT VIEWS ON OIC MINISTERIAL

REF: A. STATE 96398

[1](#)B. RIYADH 4775

Classified by ECPO Counselor John Desrocher for reasons  
1.4(b) and (d).

(C) Poloff discussed the upcoming OIC ministerial in the context of Ref A with MFA Disarmament official June 15. The official said that he expects the U.S. may find the OIC's statement on Iran even more unhelpful than the statement issued on Iran at the recent NAM ministerial. Specifically, the official said he heard that Saudi Arabia had already started to negotiate a statement that would voice support for the right to develop nuclear energy for peaceful purposes and reference ongoing Iranian cooperation with the IAEA. According to the official, Saudi Arabia does not see the harm in appeasing Iran with rhetoric as long as it does not actively contradict the actions called for by the IAEA. (Note: This conflicts with Ref B's more positive SAG prediction regarding an OIC statement. End note.)
